TO THE TEACHERS OF TREGO COUNTY. Our Institute will commence on Monday, July 20. It is desirable that as many as possible be present at the opening, so that a proper organization and classification can be made. Bring with you such reference text books as you may have. Profs. Carson and Combs are prepared to make the Institute a success, both interestingly and instructively. The course of instruction is clear and comprehensive, and will be of great benefit to all who may attend. If all the teachers will take hold in earnest we can have a good institute. Without your support we cannot. Shall it be a success?

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self abuse may be radically cured; pointing out a mode of self cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself chesply, privately, and radically.
